

RoHS COMPLIANCE STATEMENT

Due to worldwide environmental concerns, the need for lead-free devices in electronic components and systems continues to receive significant attention within the semiconductor and electronics industries. LS Research (LSR) is committed to working with our customers to offer products which meet their specific needs in this area.

LSR relies on information from third parties, including suppliers, and has not conducted destructive testing or chemical analysis on incoming materials and chemicals. Suppliers of materials used in the manufacture of LSR products, as well as manufacturers of LSR product, must provide written evidence of compliance to RoHS.

Compliant LSR products can be recognized by a Declaration of Conformity that will ship with the product. In addition, the Declaration of Conformity will appear on the product page on the LSR Website. This declaration will certify that the product is in compliance with the current EU RoHS Directives 2002/95/EC to 2011/65/EU.
