Description of Change:

A component value was changed based on an updated CC2640 reference design.

Reason for Change:

TI updated the reference design for the CC2640, which is the core IC in the SaBLE-x module. LSR updated the module to incorporate the TI change. The change was a component value only.

Anticipated Impact of the Change:

none

Method of Identifying the Changed Product:

The new revision level of the product will appear on the label.

Factory Effectivity Date:

Products with the new revisions will begin shipping in August.
